ABOUT

At Ronald McDonald House Charities of Rochester, NY (RMHCR) our most loyal donors are the heart of our annual giving program, and the backbone to our overall fundraising efforts. It is because of this we are recognizing these committed individuals through membership in our new **RED HEART SOCIETY**, the leadership annual giving society for RMHCR

Through a consecutive three-year gift commitment, RED HEART SOCIETY members will create the base of support needed to fund ongoing programs and operations across our region. This critical annual support enhances the RMHCR ability to keep families seeking medical treatment for their sick children near the care they need with families they love.

IMPACT

RMHCR has a strategic vision for providing every family and child in our region facing a challenging health or wellness situation with a supportive community of care, comfort, and compassion – at no cost. It is a plan which extends beyond a single program or idea and embraces an entire community movement. Through regional efforts, RMHCR will collaborate with our strategic partners, promoting a comprehensive health agenda for pediatric care. We will enhance, expand, and explore current and new programs, while raising public awareness, engagement, and understanding of all the inclusive programs we provide. To achieve our vision, we need our closest partners and most committed supporters to come together as one.

As a founding member of the RED HEART SOCIETY, your three-year gift commitment to RMHCR leadership annual giving society will have an immediate and profound impact on the children and families in our community, while ensuring a sustainable future for our organization.
